

Making movies isn't kid stuff

You can't afford to play games with time or money.
That's why it's so important to buy or rent your
equipment from professionals.

At Camera Mart we make it our policy to stock the
best equipment available for studio or location.

Professional equipment that is *lightweight, portable,
easy-to-handle*; such as Arriflex, Eclair, Colortran,

Nagra Sound Recorders and Wireless
Mike Systems, Elemack and Colortran Dollies. Plus
battery operated portable Sun Guns, long range
Angenieux Zoom Lenses, etc. You'll find these
and many more at Camera Mart.

Don't kid around with your equipment needs.

Call Camera Mart today. Phone: 212-757-6977.

*Specializing in equipment for TV News,
Documentaries, Industrial, Educational,
16mm-35mm Production.*

SALES ○ SERVICE ○ RENTALS

Hello:

The Camera Mart has been in business for more than 30 years servicing a growing industry with a complete line of motion picture equipment and supplies. It has always been our policy to maintain a close relationship with our clients by providing them with service and benefits of our many years of experience in the industry.

We sincerely hope this new catalogue will be helpful to you by introducing some of the finest motion picture equipment available. Our objective is to maintain simplicity in featuring and highlighting the major equipment categories. To leave you with one final thought, if what you want is not listed in this brochure, it doesn't mean we do not have it . . . it just means we are waiting for your call or visit to the Camera Mart so that we can be of even greater service to you.

THE CAMERA MART, INC.

9" Hi Hat . . . **\$75.00**; 12" wide Side Boards (set of two) **\$ 58.00**

ELE MACK "SPYDER" DOLLY

Camera equipped with smooth action hydraulic center post and four adjustable legs that allow more than a dozen different configurations. Rubber tire wheels can be changed for track operation. Unequalled versatility offers remarkable ease of handling in tight corners and narrow spaces. Dolly will track, twist, turn, crab in any direction. Wheels may be steered and locked in various combinations. Maximum height 50 1/2". Fully opened 38" Diameter. Fully collapsed 25 1/2" x 55 1/2" x 24 1/2". Swivel seats for operator and assistant. Wt. 221 lbs. Complete w/levelling head **\$4095.00**

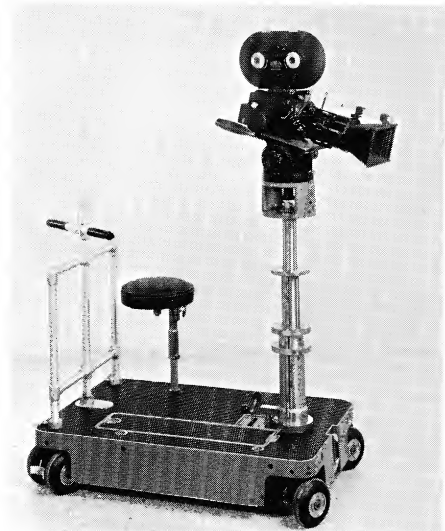

Accessories

Low-Boy attachment

For low angle shots **\$ 175.00**

Jonathan Jib Arm assembly

The "Jonathan" balanced Jib Arm 1G-14 is a rather simple device that mounted on our famous universal Spyder makes this a versatile unique dolly crane capable of revolving 360°. The Jib Arm is built in three sections so that it can be shipped in a relatively small crate. It is equipped with a pantograph indicator which enables the "grip" to follow the shot precisely as directed. Max. height: 7 feet (center lens); Min. height 3 feet (center lens) Weight: Jib Arm 210 lbs. **\$2295.00**
Jib Arm requires double wheel assembly for dolly and counter balance weights **Price on Request**

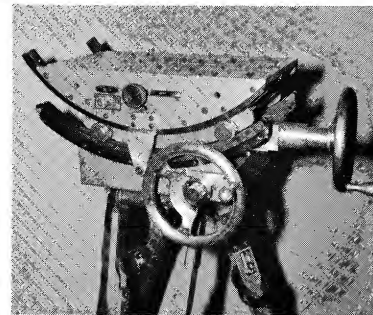

COLORTRAN HYDRAULIC CRAB DOLLY

A rugged chassis constructed of lightweight aluminum specially designed for shooting in tight places. The Colortran dolly is capable of accommodating heavy duty professional motion picture cameras. A most unique feature of this dolly is Front Wheel Steering. With selected steering controls for crabbing and rear wheel tracking. Suitcase mobility is also a special feature which permits the dolly to be transported in a carrying case on casters with handles. A separate case carries the hydraulic head. Overall dolly width is 26 3/4" x 39" long with an 8" platform height. Maximum height w/16 or 35mm head is 56". Minimum height 25". Low-Boy positions, 16mm-9 1/2"; 35mm 13 1/2". Total weight (assembled) 270 lbs. **\$4000.00**

Optional Colortran Accessories

CO2 Bottle-5 lb. (Fully charged)	Stick Shift Control	\$ 9.60
7 lb. (fully charged)	Side boards (interchangeable for either left or right side).	
Spare O' rings for above (RECOMMEND) using 2 for each bottle	Each	\$37.00
per pr	16mm low-boy	\$36.00
Seat Assembly	16mm head mount	\$80.00
Front Board	35mm low-boy	\$44.00
	35mm head mount	\$80.00

****Other accessories available—Manufacturers literature upon request.**

WORRALL GEARED CAMERA HEAD

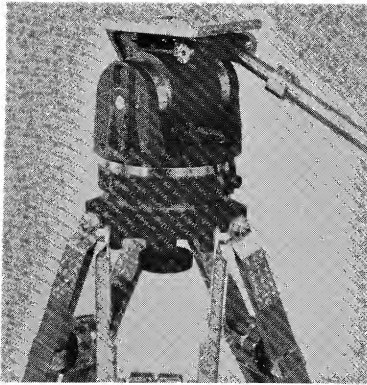

Floating action control delivers split second accuracy with smooth movement. Free position permits pre-setting, rock and roll. Fits any tripod, dolly, boom or crane. Two speed dual track, pan or tilt. Hi-speed tilt can follow subject rising from chair. Pans a full 360° and tilts 35° either way. Pan and tilt gears disengage so head "floats", friction-free on balls or rollers. Complete with two large handwheels. Weighs about 80 lbs. Accepts heavy duty cameras and blimps.

Carrying Trunk for Worrall Geared Camera Head	\$1950.00
	\$ 110.00

CAMART THREE WHEEL DOLLY

Firmly secures tripod legs. Features three 4" heavy duty rubber tire wheels with individual wheel locking device. Accommodates the heaviest camera, and moves in any direction. Folds compactly in seconds. Lightweight .. **\$69.00** Medium Wt. .. **\$99.00** Heavy Duty **\$130.00**

TRIPODS AND ACCESSORIES

NCE TRIPODS

NCE "HYDRO FLUID JR."

A true fluid head with a 25 lb. camera capacity. Complete with NCE legs, ball level and handle. (Uses same accessories as Model C & H). Special Introductory Offer ... **\$349.50** After May 1st ... **\$369.95**

NCE MODEL "C"

A silicone dampened "Hydro Fluid Head" designed for professional cameramen with ball-type leveling and positive lock. Maximum camera capacity to 40 lbs. Complete with NCE legs **\$399.50**

NCE MODEL "H"

Hydro Fluid Head w/legs. The "H" features an adjustable tilt tension knob as well as a tilt lock-pan tension & pan lock. Camera capacity to 40 lbs. **\$449.50**

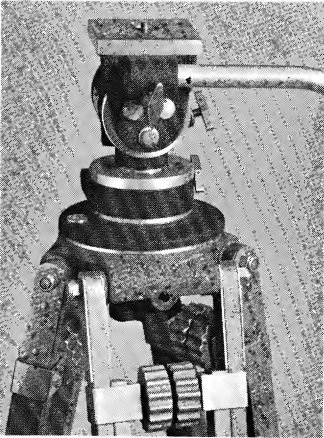

NCE "HYDRO FLUID MASTER"

A true fluid head (w/built-in balancing) of aluminum construction with precision ball bearings. Accepts cameras to 150 lbs. (Head Only) Choice of Mitchell or Ball Mount **\$749.50**

NCE-Heavy duty legs w/ball socket **\$249.50**

NCE-Heavy duty baby legs w/ball socket **\$249.50**

NCE-Hi Hat w/ball socket **\$ 99.50**

MILLER TRIPODS

MILLER MODEL SENIOR "D"

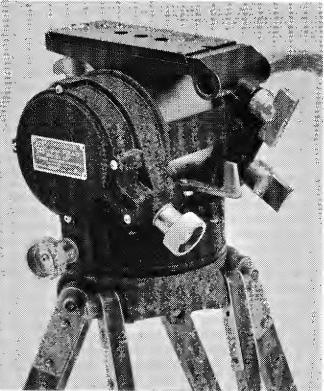

Fluid action head on Miller Grooved Legs with ball leveling device. Varied use with Bell & Howell, Bolex, Arriflex, and other similar motion picture cameras **\$295.00**

MILLER SENIOR "D" HEAD (Only) **\$ 150.00**

MILLER PROFESSIONAL HEAD

Light duty fluid action head on Miller Pro Tripod with ball leveling device. Used with Arri 16 (blimped), Arri 35 medium TV cameras and other similar cameras with magazines and motor drives **\$459.00**

PROFESSIONAL HEAD (Only) **\$299.50**

O'CONNOR TRIPODS

O'CONNOR MODEL C

Lightweight Fluid Head permits smooth panning and tilting. Maximum camera weight capacity, 20 lbs. **\$350.00**

O'CONNOR MODEL 50

New lightweight Fluid Head provides ultra smooth panning and jerk free tilting. Camera capacity to 50 lbs. **\$595.00**

O'CONNOR MODEL 100-B

Fluid pan and tilt head for use with 16 & 35mm cameras. Maximum camera capacity 100 lbs. **\$795.00**

Aluminum Custom Case for 100-B Head ... **\$104.50**

SOUND RECORDING EQUIPMENT

MAGNASYNC SOUND SYSTEMS

MAGNASYNC TYPE 5 RECORDERS

For 16mm, 17.5mm, 35mm synchronous magnetic film. Special Features include: Built-in monitor amplifier and loudspeaker, two torque motors (for take-up, rewind, fast forward), Dialogue equalizer switch, Salient pole synchronous magnetic film. Special Features counter and meets with SMPTE-ASA Standards. Film Capacity: Standard 1200' reels. Frequency response: 50 to 10,000 cps: ± 2 db. at 36 or 45 fpm. 50 to 13,000 cps: ± 2 db. at 90 fpm.

602-E-5 Recorder, Edge track, 16mm or 602-C-5 Center track **\$1985.00**

135-A-5 Recorder, Standard ASA track, 35mm or 702-A-5/17.5mm **\$2100.00**

602-E-4 Recorder, Edge track, 16mm or 602-C-4 Center track (Rack Mounted) **\$1785.00**

135-A-4 Recorder, Standard ASA track, 35mm or 702-A-4 17.5mm (Rack Mounted) **\$1875.00**

DISPLACEMENT RECORDER Model DR-1

Makes Single System Editing Possible.

The Magnasync Model DR-1 Displacement Recorder automatically re-positions the sound track of a processed 16mm single-system release print film to "editor's sync" . . . sound and corresponding picture "in line" . . . for rapid, accurate editing, and then automatically re-positions sound track to "printer's sync" or "projection sync" for immediate projection, most often required by TV and Documentary producers. The unit may be interlocked with other magnetic film recording equipment and projectors including conventional TV chain projectors. An audio input is provided to permit addition of sound to unrecorded release print film, and a playback audio output is provided for projection tracks.

The DR-1 circuitry is modular plug-in solid state. Monitor speaker, headphone output and automatic switching are provided **\$1950.00**

MAGNASYNC REPRODUCERS

For 16mm, 17.5mm, 35mm synchronous magnetic film. Quality Type 11 Reproduction of magnetic tracks in re-recording sound is a must. Available as single units for modular unit assembly, or packaged complete with interlock accessories in racks in combination of two or three complete reproducers.

602-E-11 Single Reproducer, Edge track, 16mm or 602-C-11 Center track 16mm **\$1485.00**

135-A-11 Single Reproducer, Standard ASA track, 35mm or 702-A-11 17.5mm **\$1585.00**

602-E-22 Double Reproducer, Edge track, 16mm Electrically Interlocked or 602-C-22 Center track, 16mm **\$3595.00**

135-A-22 Double Reproducer, Standard ASA track, 35mm, Electrically Interlocked or 702-A-22 17.5mm **\$3735.00**

602-E-33 Triple Reproducer, Edge track, 16mm Electrically Interlocked or 602-C-33 Center track, 16mm **\$5045.00**

135-A-33 Triple Reproducer, Standard ASA track, 35mm, Electrically Interlocked or 702-A-33 17.5mm **\$5375.00**

MAGNASYNC X-400-E-15

The "ALL-IN-ONE" Type 15, in a single portable case, is a complete, top-quality sound system. Playback monitor amplifier, loudspeaker and recorder are all built into this one compact package. Edge track, 16mm, Portable or X-400-C-15 Center track 16mm **\$1385.00**

STUDIO MIXING CONSOLE

A miniaturized studio mixing console with six input channels and patch bay. Up to three plug-in microphone pre-amplifiers may be optionally added. Line amplifier has input and output level attenuation controls; "Film-Direct" monitor switch with film gain control, and matching blank panels are provided for custom additions. Modular construction of cabinet and components, optional plug-in microphone pre-amplifiers, and hinged top door for complete accessibility to all components **\$2375.00**

Model G-963

S-801 Microphone Preamplifier **\$ 120.00**
G-971 Cueing Oscillator **\$ 95.00**
G-970 Talk-Back Microphone **\$ 150.00**
G-967 Right hand or left extension for Console **\$ 190.00**

MULTI-CHANNEL MICROPHONE MIXER MODEL G-924

Specifically designed for motion picture sound recording and remote broadcast transmission. This high level mixer features dialogue equalization on each incoming channel, master gain control, built-in microphone talk-back system, and is engineered by and for sound engineers, with the finest quality components. Inputs: Three low impedance microphone inputs and one high impedance input **\$695.00**

MAGNASYNC ACCESSORIES

G-801 Single Program Equalizer **\$245.00**

G-803 Triple Program Equalizer **\$525.00**

A-937 Semi-Automatic Bulk Eraser **\$375.00**

G-936 Professional Bulk Eraser **\$ 95.00**

EM-2 — Erase Head Modification, self powered high frequency erase oscillator on 19" x 5 1/4" rack panel, with erase head on adapter bracket, for use with M-202 Loop Rack Attachment or with any model Magnasync recorder. (Please specify). Most common application of this modification is in loop recording for foreign language recording **\$385.00**

M-202-1 — Loop Rack Attachment, 16mm loop rack attachment for magnetic film dubbers. Holds up to 100' of film for looping of sound effects, language conversion, etc. **\$600.00**

M-202-3 — Loop Rack Attachment, for 35mm **\$650.00**

MAGNASYNC TEST FILMS

F-2 Test Film, Center track azimuth 100' roll **\$25.00**

F-4 Test Film, Center track multi-frequency, 200' roll. Magnasync equalization **\$50.00**

F-4X Test Film, 16mm center track test film multi-frequency, SMPTE characteristics **\$50.00**

F-5 Test Film, 17.5mm azimuth, 100' roll, 90 fpm **\$50.00**

F-6 Test Film, 17.5mm-frequency, 300' roll, 90 fpm **\$50.00**

PORTABLE 1/4" TAPE RECORDERS

NAGRA 111-A

A self-contained professional tape recorder, assuring an excellent reliability factor, and the best recording quality available outside your studio. The frequency response, signal to noise ratio and wow & flutter characteristics of the Nagra 111, are similar to those of the best studio console recorders, but modulation noise is even better. Nagra 111

equipped w/neo-piloton sync signal (without batteries) **\$1200.00**
Carrying Case, foam rubber padding, HTF **\$ 34.00**
Power Supply Unit for AC operation, ATN **\$ 47.25**
Nagra Three Channel Mixer, BM **\$141.75**
Frequency Meter, measures signal from tape or camera, FMS **\$186.50**
Synchronizer, modifies playback speed for sync transfer, SLO **\$456.00**
Quartz Crystal controlled signal generator, SQS **\$183.60**
Camera Custom Fibre Case, carries Nagra w/leather case, mikes and Accessories **\$ 40.00**

UHER 4000 REPORT-L

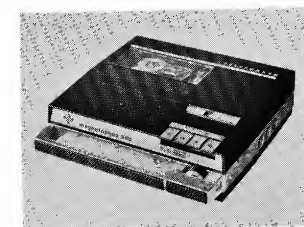

Retains all the outstanding features that made the famous 4000 report the first choice of radio and TV correspondents and reporters throughout the world, and took the Uher 4000 series from the heights of Mt. Everest to the depths of the ocean as the official sound recording instrument. Tape Speeds: 15/16, 1/8, 3/4, and 7 1/2 i.p.s.; Maximum Reel Size: 5 inches; Frequency Response ± 2 db at all speeds: 40-4500 cps @ 15/16 i.p.s., 40-10,000 cps @ 1/8 i.p.s., 40-17,000 cps @ 3/4 i.p.s., 40-20,000 cps @ 7 1/2 i.p.s. Recorder weighs 7 lbs. 6 oz. (less batteries) and measures 10 1/2 x 8 1/2 x 3 1/4 inches.

Recorder complete w/remote control, dynamic mike, leather case, AC power unit, battery charger and Dry Fit battery **\$440.00**

As above with Ranger-Tone Sync Signal Head **\$690.00**

TELEFUNKEN MAGNETOPHON 300

Is a fully transistorized tape-recorder (push-button operation) that records Half-Track (International Standard) with a maximum reel size of 5 inches. Tape Speed 3 3/4 i.p.s., frequency range 40-14,000 cps with a maximum playing time 2 x 90 min. Recorder contains one permanent dynamic loud speaker 2 3/4 x 4 inch, level indicator, control for level/volume and weighs approximately 6 3/4 lbs. **\$139.95**

SOUND RECORDING EQUIPMENT

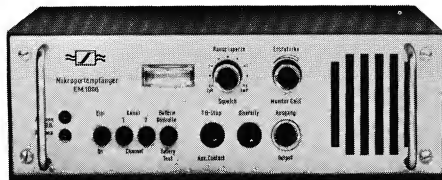

WOLLENSAK TAPE RECORDER MODEL 1500

Is a compact, top-quality 2 track monaural tape recorder. The Wollensak 1500 features a powerful 10 watt amplifier, has Balanced Tone Control, a high efficiency speaker and push button operation. Other features include: Keyboard operation, dual speed, digital tape counter, instant pause control, fast forward and rewind, provision for monitoring and P.A. use. Frequency response: 40 to 15,000 cps \pm db @ 7 1/2" i.p.s. Size: 6 1/2" x 10 1/4" x 11 3/4". Weight: 20 lbs. Complete w/microphone, accessory cord, blank tape and extra reel **\$184.95**
Carrying case for above recorder **\$ 9.95**

MICROPHONES

SENNHEISER MICROPHONES

Microphones from Sennheiser Electronic play important roles in broadcasting, recording, and in the motion picture industry, as well as in a multitude of other applications. Many thousands of Sennheiser condenser dynamic microphones are in use today, fulfilling a wide variety of requirements, from dictation at reporting to sound — stage work and specialized industrial and scientific measurements. This unusually wide acceptance can be attributed to the many design innovations and the care in manufacture long synonymous with the Sennheiser name.

MD214/1 lavalier mike	\$110.00

Condenser Microphones

MKH 404 — Transistorized Condenser Microphone, cardioid	\$240.00
MKH 804 — Ultradirectional Transistorized Condenser Telemicrophone	\$342.00
MZA 6 Battery Adapter	\$ 19.50
MZN 4/1 AC Power Supply for 2 microphones	\$ 77.00
CL 404 — Clamp for stand and boom mounting	\$ 3.24
MZT 102 — Desk Stand for MKH 104 or MKH 404	\$ 11.00
MZS 105 — Shockmount for MKH 104 or MKH 404	\$ 18.00
MZS 805 — Shockmount for MKH 804	\$ 54.00
MZW 104 — Anti-Popping Windscreen 2" dia. for MKH 104 or MKH 404	\$ 19.50
MZW 1048 — Windscreen 3" dia. for MKH 104 or MKH 404	\$ 32.50
MZW804 — Windscreen for MKH 804*	\$ 95.00
MZF 4 — Low frequency cut off filter	\$ 49.00
KA 7 — Extension Cable with Tuchel T3260/1 and T3261/1 mounted, 22 ft. long	\$ 16.00
TM 515/1 — Cable Transformer	\$ 18.00
KAT 11 — Special Transistorized cable for use with Nagra tape recorder	\$ 31.00
KAM 1 — Special Cable for use MIKROPORT Wireless Microphone	\$ 22.50
MCU — Connecting Cable for Uher tape recorder 4000 S, 6 ft. long	\$ 8.80

*Must be used in conjunction with shock mount MZS 805 only!

Dynamic Microphones

MD 211 — Dynamic Studio Microphone	\$115.00
MZW 211 — Windscreen	\$ 19.50
MD 214 — Professional Dynamic Lavalier Microphone	\$110.00
MD 421/9 — Dynamic Cardioid Studio Microphone low impedance, non reflecting finish for TV and motion picture applications, complete w/boom mount and connection cable MC 1 with pigtails (16.5 feet long)	\$126.00
MZW 22 — Windscreen	\$ 18.00

ELECTRO-VOICE MICROPHONES

EV 642 — A highly directional dynamic microphone

Essentially cardioid unidirectional up to 500 cps; highly directional over balance of range. Working distance 2 to 3 (or more) times that of conventional types. Minimum mechanical shock transfer and wind noise interference. Response: Flat from 30 to 10,000 cps or choice of 5 or 10 db low frequency reduction steps by screw driver adjustment. Impedance: 50, 150, and 250 ohms, externally adjustable. Output level —48 db. **\$390.00**

EV 666 Super Cardioid — Variable-D

Principle for high discrimination against sounds from back. Permits close talking without bass accentuation. Working distance increased by 1.7:1 over pressure microphones. Responses: 30 — 16,000 cps. Output: —58 db. Internal Connector Pin impedance change. Wired for 150 ohms; taps at 50 and 250 ohms. **\$255.00**

EV 655C (Omnidirectional) Slim Trim TV Dynamic

Frequency response, 40 to 20,000 cps. Output level, —58 db. Excellent level affords high signal-to-thermal noise ratio. Impedance: 50, 150 and 250 ohms. **\$200.00**

EV 649B Lavalier

Smallest dynamic lavalier. Length 2 1/4"; diameter 3/4". Ideal for programming where unobtrusive or concealed microphone placement is desirable. Frequency response: 60 to 12,000 cps. Output: —61 db. Complete with neck cord, belt clip and stand mounting clamp. **\$105.00**

ACCESSORIES

Model 326 Windscreen — Acoustifoam windscreen for Model 642 microphone	\$43.50
Model 356 Suspension Shock Mount — For use with Model 642 on boom or floor stand when no windscreen is used.	\$50.00
Model 355 Windscreen — Designed to reduce or eliminate wind noise, and protects against mechanical shock damage, and pickup of dust and magnetic particles. For use with Model 655C.	\$11.00
Model 524A Windscreen — Designed specifically for use w/Model 666 microphone. Minimizes wind effect on boom operation or when used outdoors.	\$12.00
Model 420 Desk Stand — Heavy cast iron stand finished in TV gray. Specifically designed for use with E-V 666, 655C, or other microphones w/1" dia.	\$20.00

Comrex Wireless Microphone System

The Comrex Model 217 Wireless Microphone System, is designed for use in studios and for medium range outdoor applications.

The Model 217 System consists of the A207 Transmitter, which is carried on the person, and the B217 Receiver. Both the transmitter and receiver are crystal controlled, which eliminates the need for tuning.

The A207 is a 100 milliwatt, FM transmitter of advanced design. It features a patented crystal controlled circuit and silicon R.F. transistors.

The B217 is a transistorized, FM receiver designed for communications and telemetry applications as well as for wireless microphone usage. It may be operated portably on self contained batteries or from AC lines using the D217 Power Supply.

A207 Transmitter	\$300.00
B217 Receiver	\$595.00
C207 Booster amplifier (transmitter accessory) — When driven by the transmitter it increases the power input to a full watt	\$150.00
D217 Power Supply — May be used with The B217 Receiver for A.C. or external 12v operation	\$100.00

RCA LAVALIER MICROPHONES

RCA Lavalier microphone Model BK6B

Direct pressure type for use in radio, TV, motion pictures, engineered for correct speech balance, semi-directional, frequency response 60-15,000 cps., impedance 30, 150, or 250 ohms **\$ 95.00**

RCA Subminiature lavalier mike Model BK12A

Extremely small, frequency response 60-18,000 cps. output 30-250 ohms **\$125.00**

NORELCO MICROPHONES

D-24E(AKG)

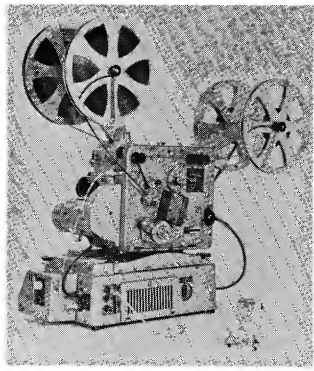

Dynamic cardioid microphone with a frequency range from 30-16,000 cps. Impedance 60 or 200 ohms, Frequency response \pm 2 1/2 db. Weighs 6 oz. **\$160.00**

D-25(AKG)

Dynamic Cardioid microphone with a frequency range from 30-16,000 cps. Impedance 60 or 200 ohms, frequency response \pm 2 1/2 db. Weighs 1 lb. 13 oz. **\$225.00**

Headsets, Special Cables, Mike Cable and other sound accessories available — Specify. **Price on Request**

PROJECTION EQUIPMENT

SIEMENS 2000 DOUBLE SIXTEEN SOUND PROJECTOR

Two major assemblies — A single system optical/magnetic 16mm sound projector and mechanically inter-locked with the projector, a 16mm magnetic film record and playback channel. In the Siemens 2000, film is transported by a triple claw precisely controlled by a special double cam. The shutter can be switched from 2-Blade to 3-Blade operation by turning a knob, which is particularly important at low projection speeds. The 16mm picture projector side of the machine meets all basic sound-on-film requirements. The double system sound attachment is mechanically inter-locked to the projector thus insuring complete synchronization making it possible to transfer recordings on separate magnetic film to sound-on-picture film and vice-versa. Also, to add and mix new sound from phonograph records, magnetic tape or microphone. Other features include a 15 watt universal amplifier and portable loud speaker.

Siemens Model 2000

Single/double system 16mm sound projector, with edge track, includes: Basic Projector Head (2000 ft. capacity) universal motor with precision control and 60 cycle AC strobe disc for 24 FPS. Single System-optical magnetic sound head, Double system mechanically interlocked 16mm magnetic film channel (record and playback — 200 mil Edge Track), 15 watt universal playback amplifier, Recording amplifier with automatic record safety lockout, 750 watt projection lamp, and 50mm f/1.4 Kino-Color Projection Lens. Complete

\$1995.00

Siemens 2000

Single/double system 16mm sound projector, as above, but with SYNCHRONOUS MOTOR DRIVE, 200 Mil Edge Track

\$2495.00

Accessories

Frame counter, five digit, accessory attachment	\$ 40.00
Loudspeaker, 15" cone, 15 watt (15 ohms,) complete in self-contained case, cable, etc.	\$ 180.00
Loudspeaker, 30 watt, twin-speaker combination, twin 15 watt speakers are hinged and adjustable for directivity — may be separated for better coverage.	\$ 260.00
25mm f/1.8 Kino-Color Projection Lens	\$ 40.00

Carrying Case for Siemens 2000 Synchronous projector	\$ 72.00

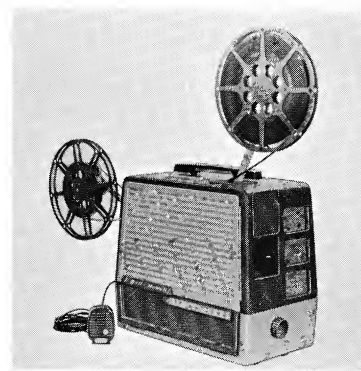

RCA 1600 (MI-35051)

A new 16mm optical sound projector with a host of unique features, that makes it outstanding in the audio-visual field. The new 1600 projectors, retain the RCA straight forward film path for easier threading. An advanced optical system and superb sound system (transistorized amplifier) gives dependable performance. Special features include: 12 watt amplifier with high efficiency speaker, 1000 watt reflector lamp, top mounted folding reel arms, 2200' film capacity, and sound and silent film speeds. Projector complete with 2" f/1.6 lens, and lightweight case

\$617.00

Accessories

Automatic "Safe-Threader" (MI-35072)	\$ 66.50
Zoom Lens (MI-35059)	\$ 96.00
Column Speaker System — Three Speaker System (MI-35083)	\$ 75.00

BELL & HOWELL FILMOSOUND MODEL 302-M

16mm optical/magnetic sound projector. Special features include a 15 watt amplifier, built in speaker, silent and sound speeds, fast rewind, pilot light, finger-tip controls, top mounted reel arms, and phono jacks. Complete with 2" f/1.6 Super Proval Lens, Ceramic Microphone and spare reel

\$950.00

Model 302MY

As above with 1 3/4"-2 1/4" f/1.6 Filmovara Zoom Lens

\$990.00

Accessories

5/8" f/2.1 Projection lens	\$37.50

1.5" f/1.6 Increlite Projection lens	\$36.50
Filmosound 12" Speaker in case with 50' cord	\$99.95

BELL & HOWELL FILMOSOUND MODEL 535

A 16mm optical sound projector. Features include 2000' film capacity, 16 and 24 fps, folding gear driven reel arms, separate volume and tone controls, fast rewind and dial focusing. Complete with 2" f/1.6 lens and 1000 watt reflector lamp

\$625.00

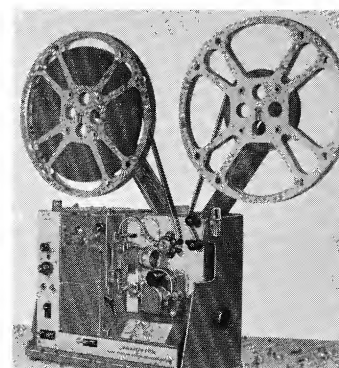

Model 535Y

As above with Filmovara (zoom lens) attachment

\$670.00

Accessories

1" f/1.9 Projection lens	\$58.00
1.5" f/1.6 projection lens	\$60.00
Filmosound 12" Speaker in case with 50' cord	\$99.95

KALART/VICTOR MODEL 75-15

16mm optical sound projector with advanced features for the ultimate in projection performance. The new Kalart/Victor 75-15 is powered by a 15 watt amplifier, has separate tuning controls, is extremely quiet, easy to set up and thread, and features the exclusive safety film trips (stops the projector automatically in emergencies — prevents film damage). Other special features include, single drive sprocket, offset loop, forward and reverse, still framing, sound and silent operation, rapid power rewind, and 2000' reel capacity

\$620.00

Kalart/Victor Model 75-25

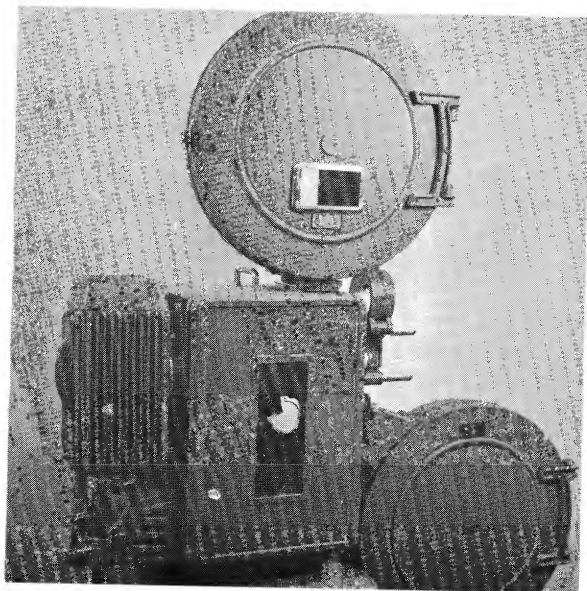

Above projector with 25 watt amplifier and separately cased 12" inch speaker

\$725.00

Accessories

Zoom Lens Model 200M 35-60mm	\$ 89.50
Kalart/Victor Mixer Magnesound (converts opt/models 75-15 & 75-25 to magnetic sound. Both record and playback)	\$220.00

PROJECTION EQUIPMENT

A.V.E. 35MM TRANSPORTABLE PROJECTORS

(Four models available) are designed for the professional. A.V.E. 35mm projectors are used in small and large screening rooms, set up in a matter of minutes, and need no special wiring. A.V.E. features include: A heavy duty construction and precision geared mechanism (for quiet operation), conical shutter, 24 tooth sprockets, replaceable aperture plates, adjustable pressure plate, built in automatic fire shutter, forced air cooling and external focusing knob. 2000' film capacity for standard projection — 1000' capacity optical mag interlock projection.

A.V.E. Transportable 35mm Silent Projector

Projector mechanism (less lens), set of upper and lower magazines (2000' capacity) & power cable **\$1575.00**

A.V.E. Transportable 35mm Optical Sound Projector

Projector mechanism (less lens), set of upper and lower magazines (2000' capacity), 18 watt amplifier, enclosed speaker with 50' cable, and set of interconnecting cables **\$1995.00**

A.V.E. Transportable 35mm Interlock Projector (Optical/Magnetic)

Projector mechanism (less lens), and set of upper and lower magazines (2000' capacity), magnetic film feed & takeup arm assembly (1000'), 18 watt amplifier, speaker in amplifier case, and one set of interconnecting cables **\$2660.00**

A.V.E. Transportable 35mm Dual Optical Sound Projector

2 projector mechanisms (less lenses), 2 sets of upper and lower magazines (2000' capacity), one 18 watt amplifier, one enclosed with 100' cable, and one set of interconnecting cables **\$3570.00**

PROJECTION STANDS

Pixmobile AV-443

All steel welded constructed table with three shelves. 34" high. Top measures 18" x 24" with rubber ribbed mat on top shelf. Unit rides on anti-shimmy 4" semi-soft ball bearing full swivel rubber wheels, two with brakes **\$29.95**

Safe-Lock Project-O-Stand Model 203-56

(Extra High) Built-on metal holder clips secure the four legs to the table top for compact, easy carrying. Sets up quickly and easily. Top area: 11" x 19", height 32" to 56", Weight 14 lbs. Tan hammertone finish and anodized gold color outer legs **\$42.50**

PROJECTION SCREENS

Super Colormaster 111 Lenticular Tripod Screens

Heavy duty screen made for the ultimate in projection quality. Square case beautifully styled with handle to adjust screen height. Sets up quickly, is seamless and has a mildew flame resistant surface.

40" x 40"	\$42.95
50" x 50"	\$51.95
60" x 60"	\$65.95
70" x 70"	\$79.95

Super Champion 11 Lenticular Tripod Screen

Features the (EAS-O-MATIC) automatic leg opening and closing system. Excellent projection quality with exclusive multi-lenticular mildew and flame resistant washable surface.

40" x 40"	\$24.95
50" x 50"	\$33.95

Evenglo Tripod Screen

A newly developed, super-beaded surface that produces extremely bright pictures.

40" x 40"	\$21.95
50" x 50"	\$30.95
60" x 60"	\$51.95
70" x 70"	\$64.95

W, Wallmaster-Wall and Ceiling Screen

Silica textured MICROFLECT Fabric in sturdy lightweight case. Hanging Brackets built on to case for quick easy installation on wall or ceiling. Seamless in all sizes except 84" x 84".

W 40" x 40"	\$16.95
W 50" x 50"	\$24.95
W 45" x 60"	\$31.95
W 60" x 60"	\$37.95

LOWEL-LIGHT UNI-6 KIT

Lowel-Light's

Tradition of compact, versatile lighting equipment is carried forward in the wonderful, new Lowel-Light Uni-6. The vulcanized fibre-case holds enough lighting gear to handle most location jobs, measures 14 1/2" x 22 1/2" x 6 1/2", weighing under 22 pounds.

CONTENTS; 6-Lowel-Light tape-up, clamp-on lighting units.

6-Lowel-Light Barndoors for R40 reflector type bulbs.

2-9 ft. Aluminum (P.I.C.) stands, each w/five locked in sections.

3-25 ft. 15 amp. neoprene extensions, each w/3-way (cube tap) outlets.

1-12 yd. roll of Lowel-Light Gaffer Tape.

2-25 amp. fuses for emergencies (complete-less bulbs)

\$124.50

LOWEL-LIGHT K-5 KIT

Includes fibre carrying case (9" x 12" x 4"), a 12 yard roll Gaffer Tape, 5 clamp on units and room for 5 folding barndoors \$34.50

LOWEL-LIGHT ACCESSORIES

Lowel-Light Clamp on unit w/3 yd. roll Gaffer Tape #LL1 \$6.95

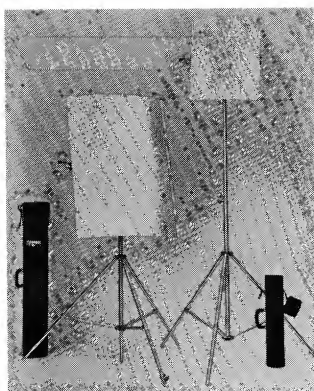

Lowel-Light Barndoor for R40 bulbs #BR40 \$5.75

Gaffer Tape, 12 yard roll #GT12 \$1.95

Gaffer Tape, 30 yard roll #GT30 \$3.95

Gaffer Tape, 60 yard roll #GT60 \$4.50

LIGHTING EQUIPMENT

LOWEL-LIGHT VARI-FLECTOR

Lowel-Light Vari-Flectors come in two sizes (404 & 202) are carried in tubes, can be set up in seconds, and clean easily with soap and water. Vari-Flectors are used both indoors and outdoors, with a stand, and can also be hand held. Vari-Flectors brilliant even light pattern can be softened or spread out or used as an excellent studio fill.

404 VARI-FLECTOR

#V44SC — complete w/stand and case \$149.50

202 VARI-FLECTOR

#V22HH — for hand holding only, with chain-link adjustment of brightness. Complete with case. \$ 34.00

202 Vari-Flector #V22SM, Stand Model, complete w/case \$ 49.00

Cross Bar for stand mounting converts #V22HH (hand held) to #V22SM stand model \$17.50

SYLVANIA BATTERY-POWERED 30V SUN GUN

SG65-Portable 30V Sun Gun

Rechargeable from 120 Volts. Complete unit includes battery pack SG65A and SG65F Sun Gun head \$395.00

SG65-EXF-Portable 30V Sun Gun

Rechargeable from 120 volts or 220 volts. Fast, one hour recharge rate. Complete unit includes SG65-EXFA battery pack and SG65F Sun Gun head \$435.00

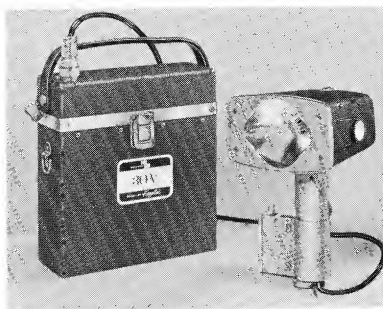

SYLVANIA BATTERY PACKS

SG65-A — Battery pack

120 volt (only) rechargeable \$385.00

SG65-EXFA — Battery pack

120 or 220 volt recharging. One hour fast charge \$415.00

SYLVANIA SUN GUN HEADS

SG65-F 30 volt head w/250 watt lamp \$69.95

SG65-F3 30 volt head complete with three lamps (150W, 250W and 350W) \$89.50

CINE 60 BELT BATTERY

Specially designed belt battery pack w/built-in charger to operate all 30V Sun Guns. \$298.00

LIGHTING STANDS

PIC

Feather weight stand constructed of tempered anodized aluminum w/automatic section stops (5 section-cannot come apart). Cable anchoring ring helps prevent tipping. Aluminum bottom plug protects section stops.

Model

#4707 — Closed 18 inches, extended length 7 feet, weight 1 lb. 10 oz. \$19.50

#4709 — Closed 22 inches, extended length 9 feet, weight 2 lbs. \$21.50

#4711 — Closed 26 inches, extended length 11 feet, weight 2 lbs. 6 oz. \$23.50

ITZA — ANOTHER CAMERA MART EXCLUSIVE

A cameramans dream that folds to 33" or extends to 8'11" which can be used as a light stand, slipole, unipod, camera stand or mike stand. Itza is versatile, lightweight, portable, folding, and adjustable. Itza weighs 3½ lbs. and is constructed of anodized aluminum. \$32.95

Extension

30" addition converts either Itza Slipole to 11'6" when fully extended. Screws to top stud, weighs 1 lb. — anodized aluminum (each) \$3.75

Cross Bar

32" cross support for lights etc. Can be used with Itza or Slipole. Catch assembly to hold Cross Bar wings at each end included ... \$3.95

Cross Bar Set

125" — 4 sections with two screw studs for attachment. Designed to hold background paper. Used with two Itza's or two Slipoles ... \$13.70

Background Paper Holder Kit

Holds two rolls of paper. Kit comes complete with two Itza stands, two 125" Cross Bars, two Extensions (30" long-7/8"), four #5-757 clamps \$104.95

LIGHTING ACCESSORIES

QUARTZ BULL'S EYE, QBE

650 Watt screw-in unit, readily adaptable, for use with existing medium base sockets. Converts ordinary outlets to high intensity light sources without additional installation costs \$12.00

QUARTZ BULL'S EYE, QBE-CO

Clamp-on version of above with built-in swivel socket. Can also be used with gator barndoor \$16.00

Louver Clip on accessory, BE-C

Snaps on to housing—Controls glare and shields high percentage of side glare and spill light. \$4.00

Swivel Socket

C-clamp fits any pipe up to 2". Complete with swivel socket & extension cord \$5.95

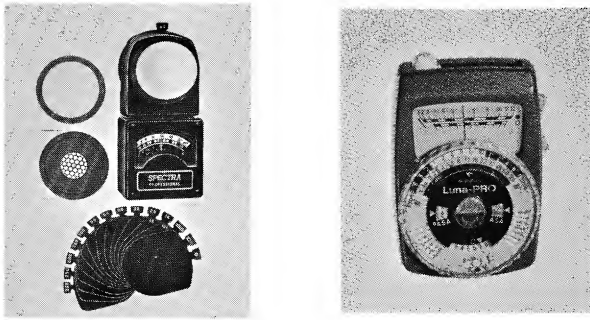

BGW Gator Grip Clamp w/Barndoor

Large barndoors for accurate lighting control, gator swiveling, rotating base w/special porcelain socket. Barndoor for tight accurate fitting & comes w/12' of #18 UL approved wire w/switch and plug ... \$15.30

Lighting Cables

Camera Mart offers a complete line of cables, plug-in boxes, tie-in pieces, and accessories for your lighting dept. Specify Price on Request

EXPOSURE METERS

EXPOSURE METERS

Spectra Pro meter, reads incident and reflected light, direct reading in f/stop and foot candles, each meter individually calibrated, ASA index from .1 to 32,000, f/0.5 to f/45, 1/4000 sec. to 8 minutes, Cine 8-64 fps, complete w/photogrid, disk, set of 12 slides and case	\$97.50
Spectra Universal meter, economy model of the Pro, reads incident light, complete w/three slides	\$67.00
Spectra Combi-500 meter, (CdS) reads both incident and reflected light, direct reading f/stop and foot candles, each meter individually calibrated, CdS cell increases sensitivity 500x for extreme low-level light measurements. ASA index from .1 to 32,000. f/0.5 to f/45, 1/4000 sec. to 8 minutes, cine 8-64 fps. Complete w/photogrid, disk, set of 15 slides and case	\$127.50
Spectra Field case w/photoshield for use w/Pro or Combi-500 meter	\$ 9.75
Spectra Combi-500 meter w/Pro Accessory kit: Combi-500 meter w/pointer lock device	\$133.00
Photoshield	\$ 5.75
Tripod attachment for meter	\$ 4.95
Photospot 5° optical brightness attachment	\$ 69.95
Tripod attachment for photospot	\$ 7.95
Ground Glass photo-reader	\$ 14.95
Color contrast viewing glass	\$ 7.50
Panchromatic viewing glass	\$ 7.50
Compartment case	\$ 29.95
Spectra Combi-500 Pro kit complete as above	\$281.50
Spectra Three Color meter , indoors and outdoors, reads directly on two scales, conversion table from 2000° K to 30,000° K, also direct Kelvin reading scale. Calculator indicates color correction filters required, complete w/Spectrasphere and case	\$360.25

Spectra Candela foot candle meter, incident light, designed for TV lighting directors and motion picture gaffers, reads 0-300 ft. candles and with 10x multiplier to 3000, with 100x multiplier to 30,000 ft. candles	\$74.50
Gossen Lunasix meter (CdS) measures reflected and incident light, ASA index from 6 to 25,000. f/1 to f/90, cine 8-128 fps, meter is powered by tiny mercury batteries, complete w/case	\$63.00
Gossen Luna Pro meter, has needle pointer lock, 30° acceptance angle, ASA 6 to 25,000, complete w/case	\$69.00
Gossen Luna Pro Accessories: Variable angle spot meter attachment, instantly converts 30° acceptance angle to 15° or 17.5°	\$17.50
Enlarging attachment, determines contrast range and correct exposure by measuring projected image on your enlarger easel	\$15.00
Microscope attachment fits ocular tube to determine critical exposure in photomicrography, may also be used with telescopes	\$15.00
Gossen Sixticolor meter, color temperature meter, reads from 2600° K to 20,000° K, may be pre-set for any type of color film. Color temperature is locked in and indicates necessary filter for color correction, w/case	\$49.95
Gossen Tri-Lux model C meter, incident light foot candle meter with direct reading, six ranges to 12, 60, and 600 ft. candles, 20x multiplier disk reads to 12,000 ft. candles	\$89.50
Honeywell Pentax (CdS) meter , light intensity read directly from scales on viewing lens. ASA index from 6 to 6400, f/1 to f/128, 1/4000 sec. to 4 minutes. Pistol Grip and adjustable eyepiece	\$129.50
Weston V Master (model 748) reflected light meter, invercone for incident readings, ASA index from .1 to 16,000, f/1 to f/32, 1/1200 sec to 90 seconds, pointer lock, with case	\$39.95
Weston Ranger 9 (Model 348) CdS-reflected meter, incident reading w/invercone attachment, high and low scales, film speed lock, eye level finder shows exactly what the meter sees, ASA index from .1 to 16,000, f/1 to f/32, 1/1200 sec to 90 seconds	\$70.00
Sekonic L-28C Meter, incident and reflected light, direct f/stop and foot candle readings, ASA index from 8 to 12,000, f/1 to f/45, 1/200 sec to 60 sec. Cine 8 to 128 fps, complete with photogrid, disk and case	\$32.50
Sekonic accessory slide kit of 9 slides w/case	\$ 9.95
Sekonic Marine Underwater Exposure Meter , up to 300 ft. depth, reflected light, ASA index from 6 to 12,000, 1/2 sec. to 1/2000 sec f/1 to f/45	\$99.95
Rebikoff Color Temperature Meter , from 2000°K to 10,000°K, indicates necessary color correction filters complete w/case.	\$67.90
Spotron Professional (CdS) Spot Meter, ultra-selective 2° acceptance angle, high-low sensitivity circuit covers extreme range of light values, prism finder, direct reading LV scale	\$99.50

CUSTOM CARRYING CASES

Cameras

#5245	Cine-Voice Converter Camera w/400' mag and 12-120 lens attached. Accessory compartments. 21" x 10" x 16 1/2".	\$116.80
